

**40 Years of HIV.
World AIDS Day.
December 1st.**

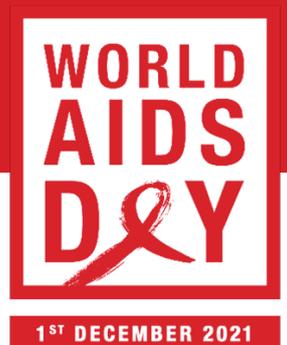

40 years of HIV. Where to next?
www.qldworldaidsday.org.au

**World AIDS Day.
Today.
December 1st.**

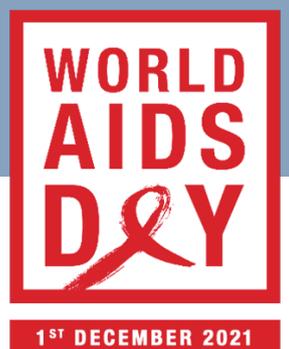

40 years of HIV. Where to next?
www.qldworldaidsday.org.au

**Who would have thought?
After 40 years of HIV,
we are asking, where to next?**

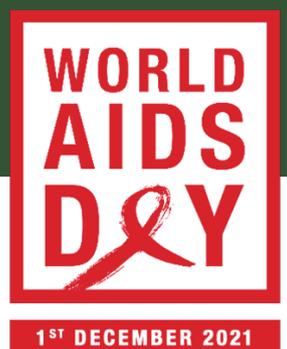

**For events & vigils near you visit
www.qldworldaidsday.org.au**

**Who would have thought?
You can now prevent HIV
with simple daily medication, PrEP.**

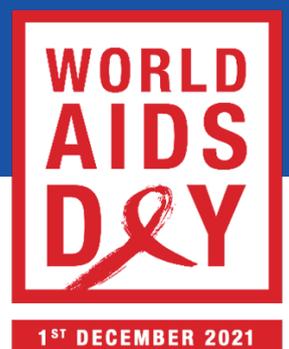

Ask your GP about PrEP & HIV Testing.
www.qldworldaidsday.org.au

**Who would have thought?
Now, most people on treatment,
cannot pass on HIV to their partners.**

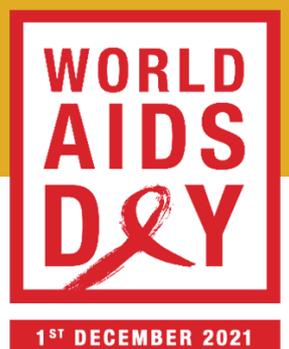

Undetectable = Untransmittable
www.qldworldaidsday.org.au

**Who would have thought?
You can get help
to live well with HIV.**

**Chat to a peer at www.qpp.org.au
www.qldworldaidsday.org.au**

**Who would have thought?
People living with HIV are
still treated differently by others.**

Help us end HIV stigma & discrimination.
